

Dear Express Entry Candidate:

On April 30, 2020, the fees increased for most economic immigration programs and the Right of Permanent Residence fee. Our system is not yet updated with the new Express Entry fees. The correct fees will be updated in the system on June 2<sup>nd</sup>.

**You must pay your application fees in 2 payments.**

First, you must pay the difference in the fee amount in our ePayment portal. After that, you must come back to your secure account to pay the rest of your application fees.

Follow these steps to make your 2 payments:

1. Calculate the total fee difference you need to pay
  2. Go to the [Make an additional payment or pay other fees](#) page in the ePayment portal.
  3. Under "Quantity", enter the payable difference amount
  4. Return to your application in your IRCC secure account.
  5. From the Document checklist page, upload the receipt(s) for the fee difference under "Optional Documents: Client Information".
  6. Proceed to pay the rest your application fees when you submit your application.
- Add up all the "payable difference" in the table below that applies to your situation
  - Each payment generates 1 receipt. You can pay as a single payment or repeat this step to make multiple payments.
  - The receipt will be sent to the e-mail address you entered in the ePayment portal.
